

Architecture Sounds Dirty

1. Scheduling the hardware
2. Nailing studs
3. Pipe penetrations
4. Fire-rated penetrations
5. Thru-wall penetrations
6. Undulating facades
7. Undifferentiated wedge
8. Shaft
9. Shaft liner
10. Fire-rated shaft
11. Drawer pulls
12. Drawer screws
13. Screws 12" o.c.
14. Latex caulk and backer rod
15. Column erection
16. Erection site
17. Plywood sheathing
18. Wall mounted hand dryer
19. Wood studs
20. Hardwood threshold
21. Caution, surfaces may be wet
22. Double-hung
23. Single-hung
24. Install blocking
25. Junction box
26. Hand blown fixtures
27. Crane erected
28. Reclaimed hardwood
29. Exposed beam
30. Drilling the pole
31. Driving piles
32. Countersinking the head
33. Demountable partitions
34. Wall mounted unit
35. Floor mounted
36. Floor mounted / ceiling braced
37. Ceiling mounted fixture
38. Roof mounted unit
39. Exposed conduit
40. Concrete vibrator
41. Wood trusses
42. Minimum headroom
43. Maximum headroom
44. Hot-mopped asphalt
45. Hot-dipped
46. To be by others
47. Trowel-finished
48. Steel erection
49. Simpson strong tie
50. Waterproofing
51. Dampproofing
52. Pulling cable
53. Pulling wire
54. Gluing it up
55. Tongue and groove decking
56. Hardwood wainscoting
57. Unyielding shelf
58. Gang nailed
59. King stud
60. Jack stud
61. Double header
62. Concrete pad
63. Laying out studs
64. Wood studs at 12" o.c.
65. All pressure treated wood to be screwed
66. Withdrawal strength
67. Installing grab bars
68. Landscaping
69. Natural landscaping
70. Hose bib
71. Rod anchors
72. Installing expansion joints
73. Soft-surface, rough-texture
74. Compacted fill
75. Flashing
76. Hip flashing
77. Gutter flashing
78. Deep grinding
79. Try and miter
80. Stuffing box
81. Triple interceptor
82. Furring strips
83. Full bed of caulk
84. Perpendicular
85. Perpendicular end
86. Tuck pointing
87. Running bond
88. Stacked bond
89. Flemish bond
90. Dry stacking
91. Flexible membrane flashing
92. She-bolt
93. Sex-bolt
94. Backfill
95. Infill
96. Taking a core sample
97. Butt joint
98. Butt glazing
99. Interstitial spaces
100. Exposed membrane
101. Deep datum penetration
102. Screws, nuts, and bolts
103. Sack-rubbed columns
104. Oil-rubbed brass
105. Hot-rolled steel
106. Extruded steel
107. Groin vault
108. Angle of repose
109. Rigid insulation
110. Blown insulation
111. Verify dimension in field
112. Outside diameter
113. Hot-dipped galvanized
114. Stacked units
115. Astragal
116. Loss of skin friction
117. Removable mullion
118. Cased opening
119. Standing seam
120. Geothermal heating
121. Under slab heating
122. Threaded rod
123. Spread footing
124. Loading dock
125. Recessed cans
126. Bead of caulk
127. Concealed openings
128. Bed of caulk
129. Ship lapped
130. Defenestration
131. Modulus of elasticity
132. Ganged vent stacks
133. Drip edge
134. Post and lintel construction
135. Flying buttress
136. Backhoe
137. Face mount hanger
138. Maximum occupant load
139. Uniformly distributed loads
140. Point load
141. means of egress
142. Ring beam
143. Consolidated fill
144. Knuckle joint
145. Thru-mortise and tenon
146. Post-tension slab
147. Pre-stressed tendons
148. Load-bearing member
149. 8" slab
150. 7" riser
